-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Claim Objections

Claim 16 is objected to because of the following informalities: it is suggested to change "aircraft" to - -aircrafts- -. Appropriate correction is required.

Claim Rejections - 35 USC § 112

Claims 1 – 11, 13, and 14 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claims 1 and 11, the phrase "capable of" is vague and indefinite because the limitations following the phrase does not constitute positive limitations in any patentable sense but only the 'ability' to do so. Claims depending upon claim 1 are necessarily rejected.

Claim 15 is objected to as being dependent upon a rejected base claim (claim 12 having been canceled), but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Allowable Subject Matter

Claims 1 – 11, 13, 14 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 16 and 17 are allowed.

The prior art of record fail to teach *an aircraft loaded with a flight computer and data corresponding to restricted airspace boundaries*, the aircraft being controllable by way of a command and control radio signal – *the flight data including software routines to loiter the aircraft over a predetermined area in the event of a loss of the command and the control radio signal*. Furthermore, the art of record fail to teach a communications relay system using unmanned aircrafts, comprising, among other limitations, a first unmanned and a second unmanned aircraft, wherein the second unmanned aircraft operates within wireless communication range of the first unmanned aircraft and for simultaneously flying outside the range of a based wireless communications station and for receiving ground based wireless communications station commands relayed through the first unmanned aircraft.
